

Bella Kristóf

Full stack web developer · self-employed

A self-employed web developer. I build custom websites, back-office systems and automations for Hungarian small and medium-sized businesses.

EXPERIENCE

Web developer, self-employed

AUG 2026 – PRESENT

Own business

I build custom websites, back-office systems and automations for Hungarian small and medium-sized businesses – from planning to launch, all in one pair of hands.

PHP developer / Scrum Master

NOV 2022 – AUG 2026

ALDI International IT Services Kft.

As a member of an international, English-speaking development team, I worked on the e-commerce platform of one of the world's leading retail networks, built on the Spryker PHP framework with extensive use of Redis and RabbitMQ.

- Code reviews, onboarding new colleagues, code quality standards
- Created an internal training system; talks at several company events
- Ten months as Scrum Master / Scope Manager, coordinating two teams

Full stack developer

JUL 2021 – NOV 2022

Hungarian Education Authority

I played a key role in designing and implementing several high-traffic systems for the Hungarian education sector.

PHP developer

SEP 2018 – JUL 2022

Frontside Kft. · contract (B2B)

I took part in several projects, including:

- REST API backend for the mobile apps of Hungary's largest music festivals
- Redesign of the MUPA.hu website
- A billing system for a regional newspaper
